	1 S.			Gen T	11. Best work &. Also some common work

1 Wilkes Street. Large houses, built for weavers, the two upper floors being workshops with the large windows characteristic of the weavers dwellings. These shops are now used & as tailors or other workshops and in additions to these shops, trades may be carried on in other parts of the houses. Houses are very dirty and swarm with vermin. They occupy one side of the ~~street~~ street the other being taken by the brewery stores, the high and unrelieved wall of which increases the dismal appearance of the street.

Had an interview with this mans son, who works for his Father. Says that Tyrans (Queen Victoria?) Lorenay, a Mr Bull expects 3½ out of every coat. This is tacitly allowed by the firm. Jews have got the coat trade till cause they understand the use of machinery better than the English & get more out of the machine.
