his pension (had been a soldier) £2-11-- & had not been seen since. Woman was admitted to S.A. Two days after Mrs Shepheard was found in the waiting room after the Guardians had met. She said she had come to ask the Guardians to take the children & being told she was too late & to keep the children a few day to see if the man came back she became very abusive. Eventually she went away. Next morning she went to the magistrate who sent a policeman to see R.O. He was told the facts & soon after the woman came. Being told that the magistrate had been told the facts, she began using foul language & R.O. left her in the waiting room. Presently R.O. told her that he would give an order for the children when she put the youngest child on the ground & said R.O. might give them in charge & commenced to walk away. R.O. ran & told gatekeeper to close the gates - she then sprang at R.O & caught him by the throat saying she would choke him. R.O. freed him from her & got out of her way. She then threw the youngest child on the stones of the courtyard more than once & it was thought better to let her go without the children for fear she should do them an injury. On July 31st/84, Mrs Holland, have left the S.A. is admitted to P.W.H. with the two children. In Sept/84, the man is still away & the mother has medicines for one of

She said that her husband did not care much for her – he had only brought her 7/- in three weeks. Her child was then running about the court (4 Prospect Place) dirty & nearly naked. Her home was filthy. He then saw Ward & recognised her as the woman he was talking about. She then abused both violently. R.O. told her to bring the child. A former landlady says that the woman is a great drunkard & the man lazy. In Feb. 85, the woman has medicines for the children & in March '85, she "falls off her sewing machine" & she & her infant are sent to S.A. She was in great pain & the home was miserable.
